

5 Courses

Create Machine Learning Models in Microsoft Azure

Microsoft Azure Machine Learning for Data Scientists

Build and Operate Machine Learning Solutions with Azure

Perform data science with Azure Databricks

Prepare for DP-100: Data Science on Microsoft Azure Exam

Apr 18, 2023

Vu Le

has successfully completed the online, non-credit Professional Certificate

Microsoft Azure Data Scientist Associate (DP-100)

An online program of five non-credit courses authored by Coursera and offered through Coursera. This program provides intermediate-level knowledge of planning and creating a suitable working environment for data science workloads on Azure. Learners who have completed this program should be able to run data experiments and train predictive models. In addition, they should be able to manage, optimize, and deploy machine learning models into production.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
